IDEA HARVEST

- Use clear, simple visuals (graphs, diagrams, and photos) to clarify circuit concepts and avoid cluttered slides.
- Limit text: use concise bullet points, avoid blocks of text, and keep slides focused on core ideas (max. 5-8 lines per slide; 5-7 words per line).
- Use large, readable sans-serif fonts (such as Arial), ideally larger than 28pt, and contrasting colors (light text on dark background or vice versa).
- Maintain a consistent design: use the same font sizes and slide layouts, and keep animations simple and consistent.
- Practice your timing, rehearse in advance, and be ready with deep content knowledge to answer questions effectively.

TIMING : 4-5 MINS
